Sure, just remind them that the memo is Draft.

We did get a verbal approval from Carl yesterday. We have to do some Community Relations work first and that has to involve LOPH.

I'll also send the presentation that the City's contractor did for the City. I think it tells a pretty good story. They should ignore the requests for money and plans by them to continue the work.

Subject: NOLA radiation

Can you send me the draft action memo? Is it something that I could share with LOPH?
J
